Nonviolent Crisis Intervention Training

By using Nonviolent Crisis Intervention Training as part of a comprehensive crisis prevention and intervention plan, staff can learn how to defuse challenging and disruptive behavior before an incident escalates to a crisis situation. Benefits to staff include: reducing the risk of injury by decreasing the number of physical interventions, improving communication among staff, and increasing staff confidence to intervene both verbally and physically as a last resort. The training emphasizes creating and maintaining a safe, caring, and respectful environment for staff and students. All participants who successfully complete the post-test will be certified through the Crisis Prevention Institute for two years. The training helps schools meet Wisconsin Act 125 requirements. All trainers are certified instructors through the Crisis Prevention Institute and have been updated to include new learning models and physical intervention options.

Level 1 - Basic Service—One and one-half day full course

This will be a minimum of ten hours up to 30 participants.

- Participants will learn how to use successful verbal and nonverbal techniques for preventing disruptive behavior
- Instruction includes demonstration and practice of personal safety techniques to avoid injury to both staff and acting out individuals
- Safe physical restraint and transport techniques will be covered
- All participants will receive a copy of the Crisis Prevention Institute (CPI) workbook and additional reference materials
- The training provides a review of WI Act 125

*Due to new, enhanced content, we can no longer offer a one-day full course.

Level 2 – Refresher Nonviolent Crisis Intervention Training Programs

Recalibrate and build upon prior learning acquired through a previous Nonviolent Crisis Intervention training program. Refresher training includes a review of Nonviolent Crisis Intervention core models and practice of any physical intervention, including new physical options added. Participants will be given opportunities to problem solve and strengthen crisis intervention skills and apply to work experiences since the last training. Training will be a minimum of six hours for up to 30 participants and include a workbook and materials. All participants who successfully complete the post-test will be re-certified through the Crisis Prevention Institute for two years.
