

Service...Above and Beyond

Career and Technical Education Leadership

Career and Technical Education focuses on helping students explore their interests, skills, and abilities in relation to the world of careers and productive citizenship. Through Career and Technical Education, students experience rigorous and challenging classroom instruction linked to relevant, structured, real-world experiences. Students learn from educators and business and industry leaders what is expected from them in the workplace and they see how classroom learning applies directly to their future adult roles as family members, workers, and citizens. They are provided multiple opportunities to assess their interests, work behaviors, and aptitudes. They are introduced to a variety of career options and learn the level of skills and education required for those careers. In short, students leave schools better prepared for and are more focused about their future and education choices.

Level 1 - Basic Service

The CESA #4 Career and Technical Ed Leadership (CTE) services include:

- Free or reduced costs for staff participation in professional development opportunities related to:
 - CTE content/technical knowledge
 - Program standards and evaluation
 - Alignment of Common Core standards with CTE curricula (Disciplinary Literacy)
 - Improving Reading and Writing in CTE areas
 - Programs of Study development, implementation, and evaluation
 - Guidance and Counseling connections with CTE and post-secondary planning
 - Work-based learning
 - Career and Technical Student Organization development and improvement
- Free participation in CTE Network Nights
- Free participation in Fall and Spring CTE Leadership/Perkins workshops (online or at CESA #4)
- Technical support for development, implementation, and evaluation of career and technical education programs, guidance/counseling services, and school to work initiatives
- Technical support to assist districts in accessing youth apprenticeships, work-based learning programs, and skill-certificated programs
- Assistance in identifying, analyzing, and interpreting various data sources specific to CTE areas for use in data retreats, program improvement, and CTSO support
- Communication regarding State and National CTE, CTSO, and Perkins Activity
- Liaison services with state agencies (DPI, DWD, WTCS, UW), professional associations, and regional groups for the benefit of CESA #4 school districts, staff, and students.
