

Service...Above and Beyond

(In Cooperation with CESA 10)

CESA 10's Environmental Health and Safety (EHS) program meets the needs of customers by providing cost-effective safety solutions while maintaining compliance with local, state, and federal regulatory agencies. CESA 10's EHS program consists of a safety and compliance continual improvement process. Services offered include:

INITIAL SERVICES

- **NEW!** - Utilization of a school specific assessment tool to provide EHS program guidance, management, and continuous improvement process
- Review of environmental health and safety policies and procedures.
- Facility inspections.
- Annual program audits to determine compliance.
- Work with administration and staff to prioritize health and safety needs.
- Up to four contacts per year for EHS plan development.
- Fume hood testing and certification.
- Evaluation of 33 EHS categories to aid in risk management.
- Health and safety training provided to all staff by qualified trainers.
- Cloud housing for easy access to EHS plans and documentation.
- Basic Indoor Environmental Quality (IEQ) Plan development

SERVICES OFFERED FOR AN ADDITIONAL FEE

Low Cost Training Opportunities

- Asbestos O&M Initial
- Asbestos Refresher
- Lead Renovator Initial and Refresher
- Electrical Safety
- And more!

Testing and Inspection Services

Additional services will be billed on a time and materials basis, and include:

- Asbestos Inspections
- Asbestos Bulk Sampling
- IAQ Investigation/Testing
- Lead Paint Services
- Regulatory Inspection Assistance

Ask about our Environmental Project Consulting Service to make sure every renovation you do is safe, healthy, and compliant!

*During any project, and especially during large referendum projects, it pays to **have CESA 10 environmental project consultants on board from the beginning. Planning for and managing asbestos and other environmental hazards is critical to any project budget and schedule, and having an expert ensure that all laws and rules are followed is critical to increasing project safety and reducing district liability.***

*Joe Zydowsky, District Administrator, School District of the Menomonee Area

Service...Above and Beyond

DISTRICT PARTICIPATION

The District will be responsible for the following:

- Completion of EHS related action items resulting from a regulatory inspection and as determined by the consultant
- Allowing sufficient time and resources to work on the EHS program
- Providing notice to CESA of any changes that could affect the EHS program, so materials can be updated. Note: Changes can affect the District’s level of compliance.
- Implementation of compliance programs

“With all the new and constantly changing regulations and requirements our district was at a loss of where to start until we connected with CESA 10. The staff is exceptionally friendly, knowledgeable, and most importantly, practical and realistic about what a school is able to do and the timelines needed to meet expectations. We value our partnership with CESA 10 and consider it a very worthwhile investment.”

Dr. Ann Buechel Haack, District Administrator, Elkhart Lake-Glenbeulah SD

Service Fee: \$2,782.00 base fee plus .003477 cents a square foot
